

Project	Part Number	Ref.
---------	-------------	------

TM03 is a 120/277V line voltage switching power supply and physical termination module. TM03 is a standard option for Panel products. TM03 is combined with other modules via a pluggable CANbus to address specific application requirements. TM03 provides 24VDC power and screw terminals for CANbus access and extension in remote mounting applications.

- Standard Panel Option
- DIN Rail Mounted
- Resides on CANbus Network
- Class 1 Power Supply
- Provides Physical Termination Point for CANbus Network and Expander module power

General

Device Type	Class 1	Mounting	DIN Rail
Dimensions	3.50" x 2.50"	Weight	5.9 oz
Wire Requirement	See Cabling Data Sheet		

Power

Input	120-277VAC, 50/60hz, +/-10% single phase	Output	24VDC, 2.5A, 2500mA
-------	--	--------	---------------------

Communication

CANbus		Topology	Daisy Chain Wiring only
Baud Rate	125kbps		
Address	N/A		

Environmental

Ambient Temperature	0 - 130 °F	Plenum Rated	Yes
Relative Humidity (non-condensing)	10 - 90%
